

IT Cambridge Technicals

The Cambridge TEC in IT is an industry relevant qualification geared to the requirements of the workplace and its use of ICT. The course requires the students to complete 5 units of work over 2 years:

- Unit 1 – Fundamentals of IT (examined at the end of year 1)
- Unit 2 – Global Information (examined at the end of year 1)
- Unit 3 – Cyber Security (examined at the end of year 2)
- Unit 8 – Project Management (coursework based, internally marked and externally moderated)
- Unit 17 – The internet of everything (coursework based, internally marked and externally moderated)

Students will have to keep a high standard of work throughout to achieve the highest levels. There are 4 possible grades: Distinction*, Distinction, Merit and Pass.

WHERE TO NEXT?

The course is useful for any IT or Computing based career such as systems analyst, systems design, web designer, and database manager. Former students have gone on to IT/computing based courses, including computer game design at Portsmouth University, or IT apprenticeships at major companies like Microsoft, Fujitsu-Siemens and National Grid.

Vocational Level 3

OCR

Assessment

50% exams,
50% coursework.
